

BHOJRAJ ACUPUNCTURE RESEARCH CENTER (B-ARC)

ADDRESS: 11/4 ATHMANADA COLONY, 4TH
MAIN ROAD, SULTANPALYA, R T NAGAR

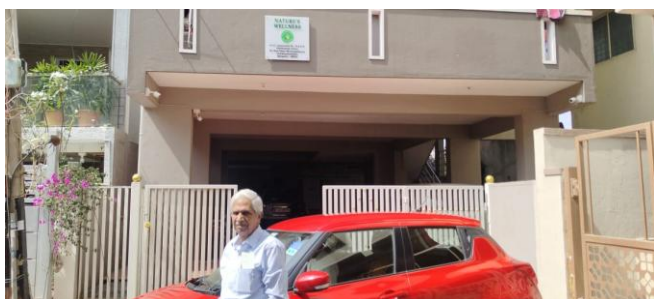

MAIN OBJECTIVE

Preventive health care is gaining momentum all over the world. The main objective of the Center is to promote Acupuncture as a therapy for not only curative purpose but also for preventive health care. We would like to promote **proactive prevention rather than reactive treatment**.

ACHIEVEMENTS SO FAR (2012-2024)

In our 12 years of research, we could establish with record that Migraine is curable with Acupuncture and self-Acupressure as prevention. Secondly, we established uncontrolled diabetes can be kept under control with Acupuncture and also self-acupressure. Thirdly we proved with record that eyesight can be improved and cataract formation can be delayed for elderly people. Fourthly, we proved with records in our research forum that hearing can be improved with self-acupressure.

PURPOSE OF STARTING B-ARC

Any sustained research needs funding for data collection, treatment, waste disposal, analysis and most importantly monthly remuneration for the researchers. So far, we have been requesting for donations from individuals for the research. But, now having got the recognition from Central Government, research funds are available from the Government and also from various Corporates interested in Preventive Health Care to improve their productivity. The proposal for the grants for research is to be prepared properly with technical details and detailed budgetary estimate to be submitted for approval. The Research Associates with master's qualification will come together in this center and prepare the proposals to be sent for approval by Government, NGOs or Corporates. We decided to form a Center exclusively for Acupuncture and the place was decided since it is very close to FAST Board, Institution, in R T Nagar, Bangalore.

ACTION PLAN-SHORT TERM

During first three months, we will be enrolling all Acupuncturists with Masters qualification for research and training them for specific research. The Research Associates will be interacting with Acupuncturists with Bachelors' degree for treatment and train them with proper documents for research particularly the protocols to be followed during the research period.

Within three months of interactions, the team under the Research Associate will submit a written proposal for a particular disease which will be evaluated by higher level committee including the Ethics Committee of FAST Board. Once approved, B-ARC will send the proposal to

different Government Agencies and also to HR Department of various corporates for their consideration. Once we get their green signal for the project we will enter into an MOU with the organization and sign the document with payment schedules for the project.

Based on the MOU, the qualified teams will be deployed in that organization which will be supervised by a Joint Committee(B-ARC and Corporate)

HOW TO JOIN OUR TEAM?

Those people who have PhD can join our Center by paying a sum of Rs.10000/= to AAA by Cheque and they can start interacting with our Research Team for making proper proposals for funding.

Others can join as Research Assistants by paying a sum of Rs.5000/= to the center. They will be trained for three months in our center for the specific research. Research Assistants are the main people to interact with patients and give treatment. Their address and phone numbers will be published in our News Letter so that patients in their area can register with them. They will be allowed to charge a reasonable fee for their services. Once we get the funds exclusively for this research, they will be paid by the Center depending on number of patients attached for the treatment.

WHOM TO CONTACT FOR JOINING?

People interested in joining our research as Research Associates(RA) or Research Assistants(AR) may contact Dr.H.Bhojraj (9845649914) or Mrs.Jija Subramanian (9986168181) or Dr.Giridhar Gopal (8088033337) or Dr.Samiullah (9019848494)

B-ARC TIMINGS FOR VISIT

Dr.Giridhar Gopal 11am to 5 pm (except Sundays)

Dr.H.Bhojraj 11am to 1pm (Mon, Wed and Fri)

AAA TRUSTEES

Dr.H.BHOJRAJ, CHAIRMAN, AAA
